EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

1. This communication is an Examiner's reasons for allowance in response to application filed on 6/30/03, assigned serial 10/607977 and title "Map display terminal and map display method".

2. The following is the Examiner's statement of reasons for the indication of allowable subject matter:

After carefully reviewing the application in light of the amended claims and the additional search of all the possible areas relevant to the present application, a set of related prior art references has been found, but those prior art references are not deemed strong to make the application unpatentable. Thus, it is found that the application is now in condition for allowance.

As per claim 18, none of the references discloses a map display method for displaying a map of a destination position, method comprising: determining an expansion ratio for each display stage on the basis of a ratio of scale values of a wide area map and an expanded and more detailed map; and displaying each display stage at the corresponding expansion ratio. This limitation in combination with the other elements in the claim was not shown or suggested by the prior art.

As per claim 28, none of the references discloses a map display method for displaying a map of a destination position, method comprising: an expansion for each display stage of the map display is determined on the basis of a ratio of scale values of a wide area map and a most highly magnified map. This limitation in combination with the other elements in the claim was not shown or suggested by the prior art.

Art Unit: 3661

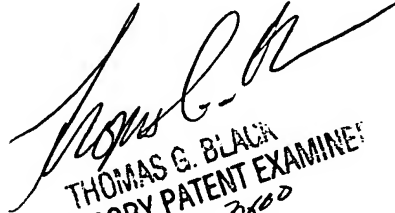

Also, as per claim 22, none of the references discloses displaying of each display stage depends upon progress of downloading of the map display information from the server of the expanded and more detailed map information.

Claims 18-22, and 24-36, are allowable over the prior art of record.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dalena Tran whose telephone number is 703-308-8223. The examiner can normally be reached on M-F (7:30 AM-5:30 PM), off every other Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Black can be reached on 703-305-8233. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
